

Join us for a special screening of...

Is Your **STORY** Making You Sick?

A film by **Frances Causey**

About the Film:

For as long as humans have existed they have told stories to each other and people have listened. But what about the stories we tell ourselves? Our stories define how we see ourselves, how we view our relationships and how we live our lives. We now know that these "stories" have implications for our health.

In "Is Your Story Making You Sick?" cameras roll over 4 workshops spanning 6 months as eight people from all walks of life bravely confront their stories. We follow these people as they recount childhood traumas, gather new strategies, destroy past beliefs and welcome change - writing a new story for themselves.

WHEN: *Monday May 6th at 6:00PM*

WHERE: *The Elm Draughthouse Cinema
35 Elm Street
Millbury, MA 01527*

Musical performance prior to film screening
